Orienteering

Linked investigations (LTI)

How can you send a coded message?

How does blood flow? What's in blood? What can your heart rate tell you?

How do animals stay warm? Can we slow cooling down?

How does inheritance work? Why are things classified?

How can we make red? What colour is a shadow?

How have eyes evolved? How many worms are underground? Where do wild plants grow best? Why do birds have different beaks? Why is holly prickly?
